

sessions Friday. All those in favor of that amendment then vote aye. All those opposed, vote no. Now, the Chair would rule that this amendment is going to have to have 25 votes because in essence, this becomes the whole motion anyway. And that would have to be, to have 25 votes to bind the body to this particular action. This motion is actually it is an amendment by Senator Syas that we begin all day sessions Friday. This motion is that all day sessions will begin Friday. Have you all expressed your opinion? The magic green button. Have you all voted? Clerk will record.

CLERK: 31 ayes, 1 nay.

PRESIDENT: Okay. All day sessions then will begin Friday. Motion carried.

CLERK: Are you going to vote on the Proud motion?

PRESIDENT: Well, all right. No, I wasn't going to.

CLERK: Mr. President, I ask unanimous consent to move LB771 to the head of the General File debate for February 19, signed, Senator Stull.

PRESIDENT: The Chair recognizes Senator Stull. Senator Stull, before you begin, just a minute. Speaker Proud, is it okay with you, I think the Chair ought to clear with you.

SENATOR PROUD: That in effect was my motion so as far as I'm concerned, one vote was sufficient.

PRESIDENT: Okay. Is it okay with you if the records show that you withdrew your motion and it was substituted with Senator Syas' here. Thank you. Senator Stull.

SENATOR STULL: Mr. President and members of the Legislature. This is a short bill. I don't think it will be too controversial. It deals with where the interest goes on certain funds that counties have invested. There are a number of counties that find them in a position where they would like to put the interest back to the fund where the money belongs. And, we need this bill so they can do that.

PRESIDENT: Is there further discussion of the motion? Senator Stull is asking unanimous consent to put LB771 at the head of General File for debate tomorrow to be bracketed there. Are there objections? Any objections? Senator Dickinson, are you objecting?

SENATOR DICKINSON: Yes, I object. I think this whole procedure as we've been discussing all morning. Trying to make non-controversial lists, trying to put non-controversial bills ahead of General File which obviously sets somebody's bill back, that far. I think we've got to get around here as Senator Proud has just espoused, to following that board and sticking with it. We'd already had a lot of work done if we hadn't spent all morning talking about it. Now, I'd like to come in. I've been waiting for Senator Warner to arrive. A bill went across this floor Friday in which they're supposed to be having all non-controversial bills, LB813. I have a transcript of it here which indicates there was some controversy. On that basis, it probably should not have been acted upon. But I'm stating at this time and I don't know what procedure to take but the committee amendment was, in fact, not adopted by the committee. But I'll have to wait until the chairman gets here to get the transcript from his office to find out what happened. But I'm simply alerting the Chair at this time that this matter will have to be given some time to be discussing at some time, I hope today.
